VIOLATION CONFIRMED — NETWORK ACTIVE

Meta Terms of Service §3.1 — CIB

Policy: "Creating networks of accounts to artificially amplify content or conduct coordinated harassment."

01 Dedicated Harassment Pages Created

Operator created "Lunar Astro Memes" and "Lunar Astro Videos" pages with no legitimate business purpose, created solely to attack a private critic and their family.

02 Bot/Fake Account Network (15+ Identified)

15+ identified fake and bot accounts posting coordinated praise content. Accounts use scripted identical phrases: "Deepanshu ji is the greatest" / "Baba ji has changed my life."

03 Coordinated Review Suppression

Bot accounts mass-reported legitimate negative reviews to suppress them. Coordinated flooding of critic and competitor content with negative comments.

04 Targeted Harassment of Private Individual

The entire CIB network was activated to target a single private individual and their family after they posted an honest negative consumer review.

PLATFORM LIABILITY ANALYSIS

Case Ref: LA-2026-001

Platform Exposure Matrix — Inaction = Complicity

VIOLATION	PLATFORM POLICY VIOLATED	LEGAL EXPOSURE	STATUS
Medical Misinformation	YouTube Policy §H.2	Consumer Protection Act (India)	LIVE
CIB / Bot Network	Meta ToS §3.1	IT Act 2000 (India)	ACTIVE
Child Safety	Both Platforms — Child Safety Standards	Australian Online Safety Act 2021	COMPLAINT ACTIVE
Targeted Harassment	Meta ToS §12	IPC Section 503/509 (India)	REGISTERED
SEO / Review Fraud	Google Search Quality Guidelines	Consumer Protection Act (India)	DOCUMENTED

Platform ad revenue funds these violations. Continued inaction — given active eSafety and police complaints — creates direct legal and reputational exposure for the platforms themselves.

SEO FRAUD & FAKE REVIEW MANIPULATION

Case Ref: LA-2026-001

GOOGLE POLICY VIOLATION

Google Search Quality Guidelines — Link Schemes & Schema Abuse

Documented Search Engine Manipulation Infrastructure

31+ **Domain Private Blog Network (PBN)**

A 31+ domain PBN used to artificially inflate search rankings. This is a deliberate, sustained investment in link scheme manipulation under Google's explicit guidelines.

FAKE **Fabricated Google Reviews via Bot Accounts**

Fake Google reviews posted through bot accounts and fake profiles. Aggregate review schema markup applied to pages with entirely fabricated testimonials.

KW **Keyword Stuffing & Doorway Pages**

Extensive keyword stuffing across multiple domains. Dedicated "review" subdomain farms on non-astrology platforms (DeviantArt, Issuu, Academia.edu).

SCH **Schema Fraud on Review Pages**

False star ratings and review counts injected via structured data markup on lunarastro.org/reviews and consultlunarastro.com/reviews — deceiving Google's crawlers.
